

Paper 7

OPTION No.			
1			
Aggregate source	Decrease current level	Maintain current level	Increase current level
marine sand and gravel			
land sand and gravel			
crushed rock			
secondary aggregates			
construction and demolition waste			
quarry waste			
glass/rubber etc			
timber building construction			

OPTION No.			
2			
Aggregate source	Decrease current level	Maintain current level	Increase current level
marine sand and gravel			
land sand and gravel			
crushed rock			
secondary aggregates			
construction and demolition waste			
quarry waste			
glass/rubber etc			
timber building construction			

OPTION No.			
3			
Aggregate source	Decrease current level	Maintain current level	Increase current level
marine sand and gravel			
land sand and gravel			
crushed rock			
secondary aggregates			
construction and demolition waste			
quarry waste			
glass/rubber etc			
timber building construction			

OPTION No.			
4			
Aggregate source	Decrease current level	Maintain current level	Increase current level
marine sand and gravel			
land sand and gravel			
crushed rock			
secondary aggregates			
construction and demolition waste			
quarry waste			
glass/rubber etc			
timber building construction
